**73%**

lectures forgotten within days

# qstudy AI

## Turn your lectures into content that sticks

Dr. Ifeanyi Munonye, MD | Founder & CEO

https://qstudy.ai

# Problem

**Retention** is broken!
Students forget 73% of lecture content within days.

**Current tools** require hours of manual work or drift off-syllabus.

**No easy way** to transform YOUR lectures into engaging study.

| 50+ | 25% | 73% |
| --- | --- | --- |
| hrs/week studying (med students) | fail boards first attempt | content forgotten in days |

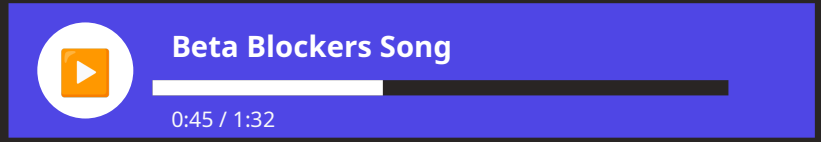

# Solution

**Upload your lectures. Get study materials your brain actually retains.**

## Real Example: Pharmacology → Song

*"Beta blockers reduce heart rate by blocking beta-1 adrenergic receptors in the heart..."*

Live demo available: https://qstudy.ai

## Market Opportunity

# $275M

Serviceable obtainable market, North American higher education: 5M students x US$500 a year x 11% share

**5M students**
STEM, pre-med and nursing programs

**$500-1,500**
Spent per student per year on study tools

**TAM**
**$32B**
Global AI in education by 2030
264M+ college students worldwide

**SAM**
**$6B**
North American higher ed AI tools
22M students in target region

Sources: HolonIQ, Allied Market Research, HTF Market Insights

# Market Validation

Students are underserved - the data confirms willingness to pay and switch

## 37%

**North America**

Performing market contribution

## $1,200

**Avg. Student Study Spend/yr**

STEM, pre-med & nursing programs

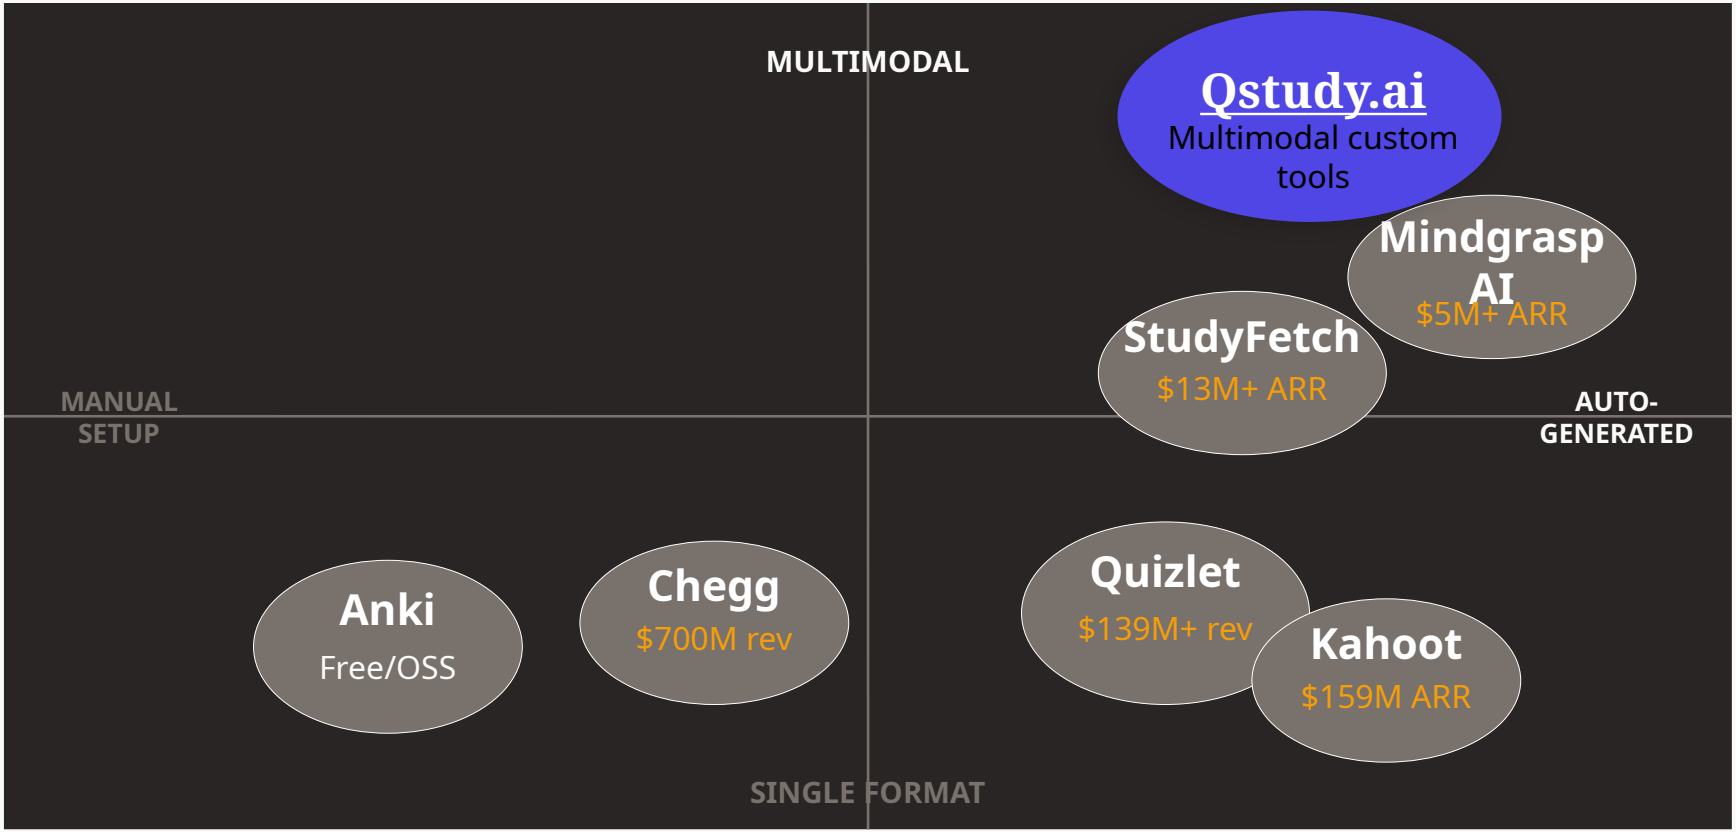

## 34%

**EdTech Market CAGR**

AI in Education to $136B by 2035

**The pain is proven, the market is growing, and students are already finding us and paying for us.**

# Competitive Landscape

**Only Qstudy.ai** = YOUR content + multimodal + automatic generation + custom tools tailored for students

# Business Model

Freemium SaaS with clear path to premium

## Free Tier

- Limited credits monthly
- All features accessible
- Natural upgrade trigger

## Premium ($6.99/mo)

- $49.99/yr annual option
- Unlimited generation, priority processing
- Regional pricing in 12 currencies

## Mobile IAP + Trials at 50% discount

- Live on iOS App Store and Google Play
- Intro trial via RevenueCat
- Web checkout via Stripe

## Campus Licenses (Next)

- Per-seat institutional
- LMS integration
- Analytics dashboard

**Today: $6.99 ARPU, 1.3% signup-to-paid (30d). Target: 5% via trial + ambassadors at CAC under $15**

# Unit Economics & 12-Month Plan

As of Sep 18, 2026 (Stripe, PostHog) • Burn: ~$2.5K/mo • Break-even: ~360 subs

| Metric | Today | 12-mo Target | Lever |
|---|---|---|---|
| Users | 2,500+ | **10,000** | Referral, SEO |
| **Premium Subs** | 15 | **500** | Trial + pricing |
| MRR | ~CA$135 | **~$4K** | 1.3% to 5% conv. |

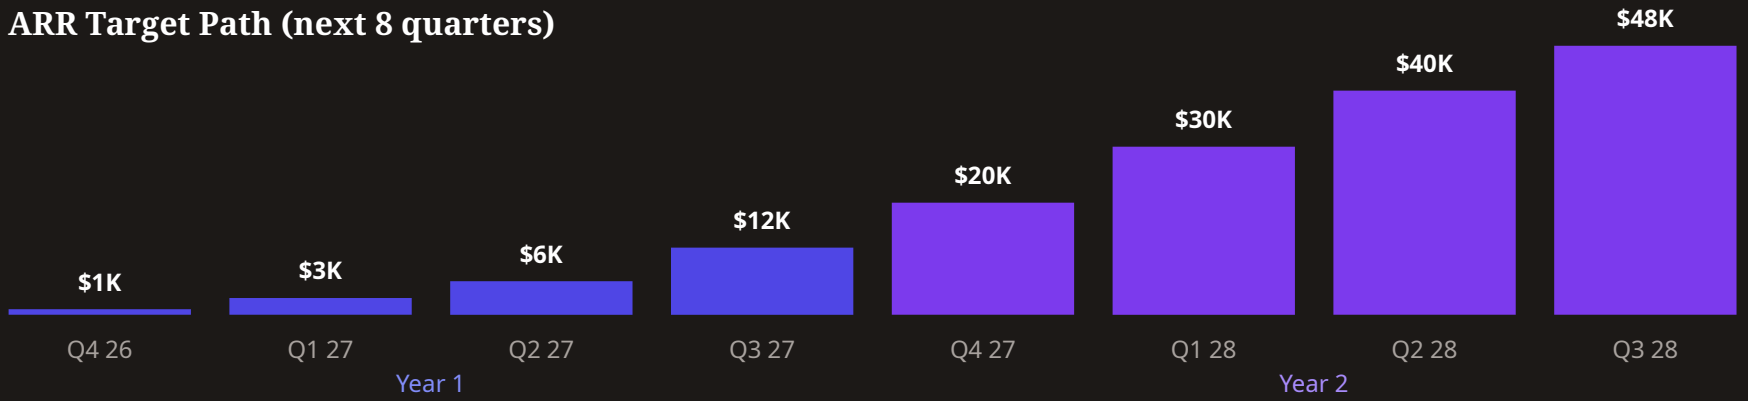

### What the data says (Aug 16 to Sep 15)

- 706 signups • 244 generated in session one (35%)
- 55 checkouts • 10 new subs • 1.3% signup-to-paid
- Paid CAC ~$108: shifting to ambassadors to reduce

### Monthly Burn: ~$2,500 (founder-funded)

APIs & Infra: ~$300 (Fly, Mongo, Redis, LLM APIs)
Tools ~$100 • Contract engineering ~$2,000
Break-even: ~360 subs (~7,200 users at 5%)

## ARR Target Path (next 8 quarters)

# Go-to-Market Plan

| 2024 to 2025<br>Build & Launch | 2026 H1<br>Foundation | 2026 Q3 (Now)<br>Multi-platform | 2026 Q4<br>Community | 2027<br>Expand |
|---|---|---|---|---|
| • MVP launched Q2 2025<br>• 800+ users by Mar 2026 | • Onboarding walkthrough (59% activate)<br>• Paywall + $6.99 pricing<br>• Lifecycle email (6 flows) | • iOS + Android live, IAP trial<br>• 54 SEO tool pages + JSON-LD<br>• Referral offer launched Sep 15 | • Campus ambassadors (recruiting)<br>• 3 campus pilots (MB, ON, BC)<br>• First B2B pilot | • LMS integrations<br>• Campus licenses<br>• North American expansion |

## Strategy: Community-Led Growth (paid CAC ~$108 is too high)

**Short-form Content**
TikTok/Reels demos

→

**Community Building**
Student Associations

→

**Campus Ambassadors**
Peer-to-peer growth

→

**Organic Sharing**
Students tell friends

# Traction

Real students, real usage, live on web, iOS and Android

**2,500+**

**Registered Users**

40+ universities and colleges, 20+ countries

**4,500+**

**Study Materials Generated**

1,300+ users have generated at least once

**15**

**Active Paying Subscribers**

**Students from:**

University of Arizona • Iowa State • University of Alberta • Memorial University • Mount Royal • Lakehead • University of Winnipeg • and 10 more

**706 signups Aug 16 to Sep 15, 35% generate in session one. Baseline to beat: day-7 return 4%, 1.4 generations per active user (PostHog, Sep 18)**

# Team

## Dr. Ifeanyi Munonye, MD

**Founder & CEO**

Clinician turned builder. Experienced the retention problem firsthand in medical training. Built Qstudy.ai to solve what I wish existed.

## Sujay Rittikar

**CTO, Full-stack & AI Engineering**

Independent AI Researcher, owns the whole stack: the web app, the iOS and Android apps, and the AI generation pipeline behind every note, quiz and explainer.

*“I watched brilliant colleagues burn out re-reading the same slides at 2am. Research shows multimodal learning works, but nothing transformed our lectures automatically. So we built it.”*

**qstudy.ai**

# What we're asking ElevateIP for
# A live product entering institutional pilots, applying before any IP work begins

## 01 Where we are

- Live on web, iOS and Android · 2,400+ users · 40+ universities · 3,900+ generations
- Pre-seed, founder-funded, North Forge Innovation Hub member
- Entering institutional pilots (MB, ON, BC) and a seed conversation; both will ask about IP

## 02 Tier 2: an IP strategy before we need one

1. Trademark clearance and strategy: "QStudy" / "Qstudy.ai", Canada + US
2. Chain-of-title audit across every contributor
3. Patent vs. trade-secret decision on the generation pipeline

## 03 What Tier 2 delivers

4. Freedom-to-operate scan against incumbents in AI study tools
5. A written IP strategy for the data room

No IP work has been started. We're applying first, deliberately.

# Thank you.

Questions? Let’s talk.

# 2027 Plan

## Q1 2027
Foundation

- Ambassador program: recruiting (24 candidates contacted)
- 5 campus pilots: outreach live (UBC, McGill, McMaster, UManitoba)
- Add 2500-3000 new users at a target of 5% subscription rate

## Q2 2027
Growth

- Launch app marketing
- Scale Social Media
- Introduce/improve partner programs

## Q3 2027
Scale

- Introduce academician-accessible platform view features for teachers/professors
- Introduce university LMS integrations. Ex: Nexus

## Q4 2027
Revenue

- Scale Revenue with an ARR target of >50K
- Optimize Premium conversion rate

## 12-Month Targets (to Sep 2027)

| 10,000 | 500 | 3 | $48K |
|---|---|---|---|
| Active Users | Premium Subs | Campus Partners | ARR |
